

WHITEPAPER · V1.0 · JULY 2026

ROBINHOOD **PEPE**

\$RHPEPE — The First Pepe on Robinhood Chain

RH-PEPE.COM · @OGPEPEROBINHOOD · FEELS VLAD, MAN.

A FROG, A CHAIN, AND A FREIGHT TRAIN

In 2026, Robinhood — the platform that once turned a feather into the most recognizable logo in retail trading — shipped its own Layer 2 blockchain, purpose-built for the tokenization of traditional finance. Wall Street called it the tokenization supercycle. The market answered the only way the market knows how: **it launched memes.**

Robinhood Pepe (\$RHPEPE) is the first Pepe on Robinhood Chain — a fair-launched, zero-tax, fully circulating meme coin deployed in the chain's launch week through NOXA Fun, Robinhood Chain's dominant token launchpad. No presale. No team allocation. No taxes. Liquidity locked permanently at the protocol level.

This document describes the token, verifies its on-chain properties, explains the launch mechanics, and lays out the raid plan. It does not promise financial returns, because the only fundamental here is the oldest one in crypto: **a good meme, held by people who refuse to sell it.**

**"THE FROG IS LIKE A FREIGHT TRAIN. HE CAN'T BE STOPPED,
AND EVENTUALLY HE'S GOING TO EAT THE ENTIRE CHAIN."**

— Swole Pepe, Greenwood Gym, Robinhood Chain, 2026

ROBINHOOD BUILT A CHAIN. MEMES CAME FIRST.

Robinhood Chain (chain ID 4663) is Robinhood's Ethereum Layer 2, launched in 2026 with a mandate to bring equities, private markets, and the rest of traditional finance on-chain — the thesis its CEO Vlad Tenev has evangelized as inevitable: tokenization as a freight train that eventually eats the entire financial system.

But before the stock certificates arrived, the degens did. Within weeks of mainnet, meme coins dominated the chain's activity, and **NOXA Fun** — the chain's leading launchpad — processed thousands of token deployments. The pattern is as old as crypto itself: every new chain's true genesis block is its first great meme.

On Robinhood Chain, that meme is a frog.

CHAIN FACTS

Network	Robinhood Chain (Ethereum L2)
Chain ID	4663
Gas token	ETH
Public RPC	https://rpc.mainnet.chain.robinhood.com
Explorer	robinhoodchain.blockscout.com
Primary DEX	Uniswap v3

RHPEPE is a community meme project and is not affiliated with, endorsed by, or connected to Robinhood Markets, Inc.

VERIFIED ON-CHAIN

Every claim below was independently verified against the contract itself — via direct RPC calls and the Blockscout explorer — in July 2026. Verification beats trust: check it yourself.

PROPERTY	VALUE
Name / Symbol	Robinhood Pepe / RHPEPE
Contract (CA)	0xd478E00fEc96b0e15d6E984385CEA43b4Da09d20
Standard	ERC-20, 18 decimals
Total supply	1,000,000,000 (fixed — verified via <code>totalSupply()</code>)
Buy / sell tax	0% / 0%
Owner functions	None — <code>owner()</code> does not exist
Mint function	None — supply can never increase
Trading pair	RHPEPE / WETH · Uniswap v3 0x47eDb90021EB0C1Ac8Bcf36E6148B5567410a083
Pair created	June 16, 2026 (launch week of the chain)

Verification methodology. The deployed runtime bytecode measures **4,830 bytes** — the footprint of a minimal, standard ERC-20. Tax-token implementations (fee logic, exclusion lists, owner controls) typically compile to 10–24 KB. Selector probes confirm `owner()` and `mint()` revert as non-existent: there is no privileged party who could ever introduce taxes, mint supply, or blacklist holders.

Reproduce it: call `totalSupply()`, `owner()`, and `eth_getCode` against the CA on any Robinhood Chain RPC.

FAIR LAUNCH, FULLY IN THE WILD

RHPEPE launched through **NOXA Fun**, Robinhood Chain's hybrid launchpad. NOXA deployments differ from classic bonding-curve launchers in one crucial way: tokens deploy **directly to Uniswap v3** with single-sided liquidity in a single transaction — no migration event, no rug window — and the LP position is **locked permanently** in a locker contract. It never moves, never migrates, and cannot be pulled.

ALLOCATION	AMOUNT	SHARE
Fair launch (community)	1,000,000,000	100%
Team / VC / presale	0	0%
Circulating	1,000,000,000	100% (market cap = FDV)

Where the supply sits (July 2026 snapshot — drifts with trading):

- ~**76%** in holder wallets and the open market
- ~**24%** in the Uniswap v3 pool — locked forever via the NOXA locker

There is no treasury, no vesting schedule, and no unlock calendar — because there is nothing to unlock. Every token has been in the wild since block one.

THE RAID PLAN

A meme with a map. Ambitious where it counts, honest that the real product ships daily on the timeline.

PHASE I — THE GENESIS RAID • DONE

Contract deployed on Robinhood Chain in launch week. 1B fair-launch supply, liquidity seeded on Uniswap v3 and locked forever, title claimed: the first Pepe on Robinhood.

PHASE II — RALLY THE MERRY MEN • IN PROGRESS

Grow the band of holders, ship memes daily, verify DexScreener socials, launch rh-pepe.com, and push for CoinGecko / CoinMarketCap listings.

PHASE III — SHERWOOD EXPANSION

Community treasury for marketing, collaborations with other Robinhood Chain projects, an art & sticker pack, and the first CEX conversations.

PHASE IV — LEGEND STATUS

Exchange listings, a proper merch drop, and a Pepe in every green hood on the chain. Utility? The utility is the memes. Feels good, man.

On "utility." RHPEPE makes exactly one promise: to be the first and loudest frog on a chain built by the largest retail brokerage brand of its generation. Meme coins are culture, coordination, and conviction — not cash-flow instruments. Anyone who tells you otherwise is selling something with a tax on it.

Website	https://rh-pepe.com
X / Twitter	@OgPepeRobinHood
Chart	dexscreener.com/robinhood → RHPEPE / WETH
Contract	0xd478E00fEc96b0e15d6E984385CEA43b4Da09d20

How to buy: add Robinhood Chain (ID 4663) to any EVM wallet → bridge ETH → swap WETH for RHPEPE on Uniswap v3 using the contract address above. Verify the CA every time; screenshots lie, arrows don't.

RISK DISCLOSURE

\$RHPEPE is a community meme coin with no intrinsic value, no promise of financial return, no formal team, and no roadmap obligations. This whitepaper is for informational and entertainment purposes only and is not financial, legal, or tax advice, nor an offer or solicitation to buy any asset. Cryptocurrency prices are extremely volatile; you can lose the entirety of your investment. On-chain facts stated herein were verified as of July 2026 and may change in ways outside anyone's control (except the ones that can't — the supply and the taxes, which are physically immutable). RHPEPE is not affiliated with, endorsed by, or connected to Robinhood Markets, Inc., Pepe the Frog's estate, Michelangelo, or God. Do your own research. Never invest more than you can afford to lose. Feels good, man.
